

Dr. Paweł Górk

University of Agriculture in Krakow

Faculty of Animal Sciences, Department of Animal Nutrition and Biotechnology, and Fisheries

Address: al. Mickiewicza 24/28, Room 350

Tel: 12 662 40 84

Email: p.gorka@ur.krakow.pl

Consultation hours: appointments by e-mail

Research interest:

- ruminant nutrition
- gastrointestinal tract development
- gene expression

PI in current projects:

1. Impact of various feed additives on rearing performance of dairy calves
2. Impact of proportion of concentrates in the diet and exogenous butyrate on rumen in sheep
3. Impact of probiotic feed additive on growth performance of calves

Research experience: Over ten years of research in the field of ruminant nutrition and gastrointestinal tract modulation.

Visiting Scholar -

DSc, (Habilitation) Title: Effect of exogenous butyric acid and its sodium salt on the structure and functions of the stomach and small intestine in ruminants, University of Agriculture in Krakow, Poland (2019)

PostDoc Post-doctoral fellow, University of Saskatchewan, Department of Animal and Poultry Science, Saskatchewan, Canada (2011-2012)

PhD Title: The effect of liquid feed type on the development of gastrointestinal tract in calves, University of Agriculture in Krakow, Poland (2010)

MSc Title: The effect of BioPlus 2B probiotic feed additive on performance of calves, University of Agriculture in

Krakow, Poland (2005)

Professional profiles:

ORCID: [0000-0002-4278-0493](https://orcid.org/0000-0002-4278-0493)

Research ID: [N-3885-2015](https://publons.com/researcher/N-3885-2015)
