

Anna Kołton , PhD

University of Agriculture in Krakow

Faculty of Biotechnology and Horticulture

Address: al. 29 Listopada 54, 31-425 Kraków, Room 412

Phone: (12) 662 52 11

Email: anna.kolton@urk.edu.pl

Consultation hours: Wednesday 12:00-13:00

Research interest:

- plant nitrogen management - nitrate storage, regulation of NR and NiR activity, under the influence of various factors
- vegetable crop quality - after harvest and after storage, under the influence of various factors (light, fertilization, genotype - varietal differences, iodine feeding)
- antioxidative system - functioning, testing of its various elements
- reactions to stress - hypoxia, chilling, light pollution at night, the impact of urban conditions on the trees
- plant photobiology - include research using LED

Research experience:

Visiting Scholar

02.2016-04.2016 – 3-month internship at Stavanger University with prof. Cathrine Lillo (for this purpose awarded the scholarship of the Rector of the University in Krakow)

PhD

2010 – PhD, Univ. of Agriculture in Krakow, Effect of nitrogen form and different light conditions on selected parameters of nitrogen metabolism connected with quality of sweet pepper 'Spartacus F₁' fruits grown on rockwool
